

ScaleSlayer™

Point-of-Use Multi-Purpose Treatment System

- Leading-edge green technology
- Salt-free
- Plug and play installation
- Uses no electricity

The Anova Resources **ScaleSlayer™** multi-purpose point-of-use water treatment system uses leading-edge “green” technologies in a sleek, attractive package to offer a wide variety of benefits to the end-user:

- Anti-scale technology reduces the harmful effects of hard water scale (1)
- System removes chlorine, taste and odors
- System is salt-free and uses no electricity for environmentally-efficient operation
- Heavy-duty aluminum canister includes food-grade liner and allows for easy media replacement (2)
- Easy wall-mount installation (3)
- Available in 10” or 20” lengths
- Choice of gold or platinum colors

The **ScaleSlayer™** system is great for protection and treatment of:

- Tankless water heaters
- Commercial ice makers
- Commercial coffee/espresso equipment
- Water mister systems
- Warewashing equipment
- Fountain/beverage machines
